Overview

Advanced Air Purification with UV Sterilization

This high-performance air purifier is designed to provide a comprehensive solution for indoor air quality, featuring a multi-stage filtration system and integrated UV sterilization. It effectively removes fine dust, allergens, formaldehyde, and unpleasant odors from tobacco or pets to ensure a fresh environment. With intelligent features like Auto and Sleep modes, it offers a seamless user experience suitable for both residential and professional settings.

Performance

PCADR

200 m³/h

Clean Air Delivery Rate

Applicable Room Size

16-28 m²

Maximum Noise Level

61 dB(A)

Filtration & Sterilization

Sterilization Technology

UV Sterilizer

Target Pollutants

- Dust and particles
- Formaldehyde and Benzene
- Pesticides and hydrocarbons
- Tobacco and animal odors
- Cooking lampblack

Filtration System

Pre-filter, HEPA H13, Activated Carbon

Technical Specifications

Product Item NO.	TLZ710
PCADR	200m ³ /h
Power consumption	27W
Filter configuration	Pre filter+HEPA H13+ Activated Carbon
Noise level/max	≤61dB(A)
Motor	DC motor
Applicable room size	16-28 m ²
Manual control of fan speed setting	Yes (3 fan speed)
Sensor	IR sensor
Functions	Auto mode, Sleep mode, filter replace reminder, UV sterilizer
Digital display	NA
Air quality indicator	Yes, color ring
Adaptor	24V1.5A
Product dimension	260*260*420mm
MOQ	1000pcs
USD(FOB NINGBO)	

Power Consumption

27 W

Motor Type

DC Motor

Product Dimensions

260 x 260 x 420 mm

Power Adaptor

24V 1.5A

Smart Features

Sensors & Indicators

- IR Sensor
- Color ring air quality indicator
- Filter replacement reminder

Available Modes

Auto Mode, Sleep Mode, 3 Fan Speeds
