

Air Quality Control Unit

This unit functions as both a humidifier and a dehumidifier. It is designed to regulate air moisture levels in indoor environments.

Product Overview

Advanced Air Quality Control

This Air Quality Control Unit is designed to maintain optimal environmental conditions in professional settings. It effectively manages humidity levels to ensure comfort and air quality compliance. Built with robust components, it is suitable for various commercial and industrial applications requiring precise air treatment.

Technical Specifications

Device Type	Air Quality Control Unit
Functionality	Humidification, Dehumidification, Air Quality Management

Design and Aesthetics

Aesthetic Features

- Earth-toned colors (brown, beige, gray)
- Rustic and organic aesthetic
- Horizontal rectangular stone arrangement

Design Finish	Textured stone panel style
