Product Overview

Professional Air Inflating Gun

This professional-grade air inflating gun is engineered for precision tire maintenance, offering a comprehensive solution for checking, inflating, and releasing pressure. Designed with an ergonomic body for comfort and ease of use, it ensures reliable performance across a variety of vehicle tires. The tool features a durable brass chuck and a heat-treated 360-degree swivel connector, preventing hose tangling and ensuring long-term durability in demanding environments.

Key Features

Core Features

- Ergonomic handle design for comfortable operation
- 360-degree swivel connector to prevent hose twining
- Durable brass chuck construction
- Portable and lightweight design

Technical Specifications

Applications

Tire Pressure Checking • Tire Inflation • Pressure Releasing

Measurement Units

PSI, BAR, kPa

Conversion Reference

1 bar = 100 kPa
