Product Overview

High-Efficiency Air Filtration Solution

This Air Ventilation Box Filter is engineered for superior air quality control in demanding environments. Utilizing high-grade glass fiber paper, the filter provides a large filtration surface area for optimal particle capture. Its robust construction, featuring options for wooden or metal frames, ensures durability and reliability across a wide range of industrial and commercial air handling applications.

Technical Specifications

Filtration Level

F8 • F9 • H10 • H11 • H12 • H13

Frame Material Options

- Wooden frame
- Metal frame

Filter Media Material

Glass fiber paper

Separator Board Material

Offset paper, Aluminum foil

Performance Features

Key Performance Indicators

1 High

Temperature Resistance

1 Large

Filtration Area

Applications

Typical Applications

- Fresh air systems
- Industrial FFU (Fan Filter Units)
- Clean room environments
