

AISI304L Stainless Steel Seamless Water Well Casing

This AISI304L stainless steel water well casing features a seamless design. It provides exceptional strength and corrosion resistance for reliable water extraction.

Product Overview

High-Performance Stainless Steel Casing

This seamless AISI304L stainless steel casing is engineered for professional water well drilling applications. Designed to ensure wellbore stability and prevent collapse, the casing offers exceptional corrosion resistance and structural integrity in demanding underground environments. Each unit is manufactured to precise standards to provide a reliable and long-lasting solution for sustainable water extraction projects.

Technical Specifications

Material Grade	AISI304L Stainless Steel
Available Diameter Range	2 3/8 inch to 20 inch
Connection Types	STC, LTC, BTC, EUE, NUE

Performance Metrics

Key Performance Indicators

13.375 inch
Maximum Diameter

304 L
Steel Grade

Size & Weight Table

Standard Casing Dimensions

Size (in)	Diameter (mm)	Wall Thickness (mm)	Weight NUE (lb/ft)
2 3/8	60.32	4.24	4
2 3/8	60.32	4.83	4.6
2 3/8	60.32	6.45	5.8
2 7/8	73.02	5.51	6.4
2 7/8	73.02	7.01	7.8
3 1/2	88.9	5.49	7.7
3 1/2	88.9	6.45	9.2
3 1/2	88.9	7.34	10.2
4	101.6	5.74	9.5
4	101.6	8.38	13.2
4 1/2	114.3	6.88	12.6
4 1/2	114.3	8.56	15.2
