

Alkaline and Carbon Battery Assortment

This assortment includes both alkaline and carbon batteries. The batteries are suitable for a variety of devices, including hearing aids, flashlights, and radios.

Overview

Professional Battery Assortment

This comprehensive assortment includes both alkaline and carbon battery types, designed to provide reliable power for a wide range of professional and consumer electronic devices. Engineered for strong performance, these batteries are suitable for applications ranging from precision electronics like laser pointers and hearing aids to high-drain equipment like road warning lights and flashlights. The selection offers various packaging configurations to suit different inventory needs, ensuring long shelf life and consistent energy output.

Battery Types & Applications

Battery Applications

Model	Chemistry	Typical Applications
LR1	Alkaline	Hearing aids, flashlights, pagers
LR8D425	Alkaline	Laser pointers, flashlights
4LR61	Alkaline	Electronic devices, cameras
3LR12	Alkaline	Radios, flashlights
4LR25	Alkaline	Road warning lights, flashlights
4R25	Carbon	Road warning lights, flashlights
3R12	Carbon	Flashlights, radios

Alkaline Battery Specifications

Alkaline Packaging Details

Model	Cells/Box	Cells/Carton	Dimensions (mm)	Gross Weight (kg)	Shelf Life (yrs)
LR1	40	1200	375x275x223	7.3	5
LR8D425	60	1800	240x217x158	12.8	5
4LR61	40	480	365x212x137	15.8	6
3LR12	24	96	290x281x168	13.6	5
4LR25	6	18	459x229x143	16	5

Carbon Battery Specifications

Carbon Packaging Details

Model	Cells/Box	Cells/Carton	Dimensions (mm)	Gross Weight (kg)	Shelf Life (yrs)
4R25	6	18	459x229x143	10.2	2
3R12	10	80	290x281x168	11.4	2
