Product Overview

Sustainable High-Performance Power

These alkaline batteries offer reliable and long-lasting energy for a wide range of professional and everyday electronic devices. Engineered for consistent performance, they are ideal for applications such as flashlights, remote controls, and toys. The product features an eco-conscious design utilizing paper-based packaging to significantly reduce plastic waste in the supply chain.

Technical Specifications

Available Formats	AA (LR6), AAA (F.03)
Nominal Voltage	1.5 V

Safety and Handling

Operational Warnings

- Do not recharge
- Do not open
- May explode if exposed to fire

Sustainability

Packaging Material

Plastic-free • Eco-friendly paper
