Product Overview

High-Performance Alkaline Power

These high-quality alkaline batteries are designed for long-lasting performance and reliability. Engineered with a leakproof construction, they provide essential protection for your electronic devices. The formulation is completely free from mercury and cadmium, making them an environmentally conscious choice for general power needs.

Technical Specifications

Environmental Compliance

0.00% Mercury • 0.00% Cadmium • Leakproof Design

Key Performance Metrics

1.5 V
Voltage

Available Sizes	AA (LR6), AAA (LR03)
Nominal Voltage	1.5 V
