

Alkaline Button Cell Battery L1028

This high-performance alkaline battery is designed for various electronic devices. It provides reliable, long-lasting power and is ideal for devices requiring a stable and consistent energy source.

Overview

High-Performance Energy Solution

The L1028 Alkaline Button Cell Battery is a high-performance energy solution designed for a variety of electronic devices. Engineered for reliability, this battery provides a stable and consistent power output to ensure long-lasting operation. Its mercury and lead-free composition ensures environmental safety, making it a responsible and efficient choice for diverse portable applications.

Technical Specifications

Model Number	L1028F
Chemistry	Alkaline
Compliance	Mercury-Free, Lead-Free
Country of Origin	China
