

All-in-One Solar Street Light with Detachable Battery

This high-power commercial all-in-one solar street light features a silver die-cast aluminum lamp body and a detachable battery box. It has a customized size from 40W to 150W and a 140° wide lighting angle.

Product Overview

Efficient Solar Lighting Solution

This all-in-one solar street light integrates the solar panel, LED light source, battery, and controller into a single, sleek unit. Designed with a durable aluminum alloy case, it provides a self-sufficient and energy-efficient lighting solution for areas where grid power is unavailable. The system features advanced controls, including photocell, microwave motion sensing, and remote operation, ensuring reliable performance for streets, pathways, and parking lots.

Technical Specifications

Housing Material	Aluminum alloy
Lighting Angle	140 degrees

Performance

Autonomy After Full Charge	5 nights
----------------------------	----------

Control & Features

Installation & Operation

- Easy to install
- Auto on/off
- Automatic sensor operation

Control Methods	Photocell Control, Microwave Motion Sensor, Remote Control
