

All-Terrain Bias Tire - TB822

This bias OTR tire is designed for both on and off-road applications. Its tread design balances traction and promotes even wear across various terrains.

Product Overview

TB822

Mobility Tire for On / Off Road Applications

- All purpose tread design for a balance of traction and even wear
- Foot print offers smooth and comfortable ride
- Tough construction for robust support in all wheel positions

The TB822 features an all-purpose tread design that balances traction and even wear for versatile on and off-road performance.

Versatile All-Terrain Mobility

The TB822 is a high-performance mobility tire engineered for seamless transitions between on and off-road applications. Designed with an all-purpose tread pattern, it balances superior traction with even wear characteristics to extend service life. The tire's footprint is specifically optimized to provide a smooth and comfortable ride while maintaining the robust support necessary for all wheel positions.

Performance Highlights

Key Performance Features

- All-purpose tread design for balanced traction
- Promotes even wear for extended tire life
- Engineered footprint for smooth and comfortable ride quality
- Tough construction for robust support in all wheel positions
- Superior grip on various terrains
- High resistance to cuts and abrasions
