

# All-Terrain Tire for Trucks and SUVs

This all-terrain tire is engineered for exceptional performance on and off the road. The durable construction ensures resistance to punctures and abrasions, extending the tire's lifespan.

## Product Overview

### Rugged Performance for Trucks and SUVs

This all-terrain tire is engineered for exceptional performance both on and off the road. Its aggressive tread pattern provides superior grip in diverse terrains, including mud, gravel, and snow. Designed for trucks and SUVs, the durable construction ensures resistance to punctures and abrasions while maintaining a smooth and quiet ride on paved surfaces.

## Technical Specifications

### Tire Dimensions

**285 mm**

Section Width

**75 %**

Aspect Ratio

**16 in**

Rim Diameter

### Performance Data

Specification	Value
Load Index / Speed Index	112/119 S
Recommended Rim	8J
Tread Depth	12.5 mm
Max Pressure	250 kPa
Ply Rating (PR)	8

## Features

### Terrain Suitability

Mud • Gravel • Snow • Paved Roads

### Compatible Vehicles

Trucks, SUVs, 4x4 Vehicles
