

## All-Terrain Vehicle (ATV) for Off-Road Use

This all-terrain vehicle is designed for off-road adventures. It features a powerful engine, rugged tires, and a sturdy frame to handle various terrains.

### ADDITIONAL IMAGES

### Overview

#### Built for Performance and Reliability

The 180cc All-Terrain Vehicle is engineered for versatility and reliability in off-road environments. Featuring a specially adjusted CVT engine, it delivers responsive acceleration and consistent power for both recreational and utility tasks. The vehicle is built on a cross-link rhombic frame for superior structural integrity while maintaining a lightweight profile for agile handling.

### Engine & Performance

#### Engine Performance

**180 cc**

Engine Displacement

**7.35 kW**

Max Power

**7500 rpm**

Rated RPM

#### Transmission

CVT (R-N-F)

### Key Features

#### Design & Utility

- Cross-link rhombic structure frame for strength and weight reduction
- High-qualified front and rear sports shocks
- A-pattern tires for superior grip and wear resistance
- Front and rear cargo racks
- Half-surrounded big footpeg for rider safety
