

Alloy Steel Diagonal Cutting Pliers

These diagonal cutting pliers are constructed from premium alloy steel with a rust-resistant finish. They feature a hardened cutting edge and ergonomic non-slip grip for comfortable and secure handling.

Product Overview

Precision Cutting Performance

These diagonal-cutting pliers are engineered for durability and precision in demanding professional environments. Constructed from premium alloy steel with a rust-resistant micro finish, they ensure long-lasting performance and reliability. The hardened cutting edge delivers efficient performance, while the ergonomic, non-slip soft grip handle enhances control and reduces user fatigue during extended use. They are an essential tool for electrical, electronics, and general cutting applications.

Material & Construction

| | |
|----------------|--|
| Material | Premium Alloy Steel |
| Surface Finish | Rust-resistant micro finish, Nickel-iron surface treatment |
