Overview

High-Performance Alloy Wheel

This high-performance alloy wheel is engineered to enhance both vehicle aesthetics and handling dynamics. Constructed from lightweight alloy, it helps reduce unsprung weight to improve fuel efficiency and overall driving performance. The multi-spoke design features a sophisticated matte black finish with distinct red accents, providing a modern and aggressive look suitable for a wide range of vehicle makes and models.

Technical Specifications

Available Sizes	14 inch to 18 inch
PCD Configuration	4x100-120, 5x100-120, 8x100-120

Design & Construction

Finish

Matte Black • Red Rim Accent

Construction Benefits

- Lightweight alloy construction
- Improved fuel efficiency
- Reduced unsprung weight
- Corrosion resistance

Design Style

Multi-Spoke
