

Aluminium Handle Wire Rope Cutter

This wire rope cutter features aluminium handles for durability and reduced weight. Its hardened steel cutting wheel ensures clean and precise cuts on various wire rope sizes.

Product Overview

Heavy-Duty Cutting Performance

This wire rope cutter is engineered for industrial, marine, and construction environments where durability and precision are paramount. Featuring robust aluminium handles, it offers a lightweight yet heavy-duty solution for cutting various wire rope sizes. The ergonomic design ensures comfortable operation and optimal leverage, significantly reducing user fatigue during repetitive tasks.

Technical Specifications

Key Features

- Hardened steel cutting wheel for precise cuts
- Lightweight aluminium handles
- Ergonomic grip for reduced fatigue
- Enhanced leverage design

Construction Material

Aluminium handles with hardened steel cutting wheel

Ideal Applications

Industrial, Marine, Construction
