

Aluminum Alloy Basin-Shaped Speaker Stand - 12-Inch

This 12-inch speaker accessory features a basin-shaped stand constructed from aluminum alloy. It provides a stable, lightweight base with cutouts for airflow and secure mounting points.

Product Overview

A-Series 12-Inch Speaker Stand

This basin-shaped speaker stand is engineered from durable aluminum alloy, providing a lightweight yet sturdy base for 12-inch speaker components. Its design features strategically placed cutouts to optimize airflow and minimize unwanted resonance during operation. Built for versatility and longevity, the circular structure includes multiple mounting points for secure integration into various audio systems.

Physical Specifications

Size Class	12 Inches
Material	Aluminum Alloy
Shape	Basin-shaped

Features

Key Features	Lightweight, Corrosion Resistant, Optimized Airflow, Resonance Reduction
Mounting	Yes
