Product Overview

Versatile Cargo Solution

These high-strength aluminum alloy car cross bars are engineered for secure and reliable cargo transport. Designed with an aerodynamic profile to minimize wind noise and drag, they provide an ideal platform for carrying luggage, sports equipment, and oversized items. Their universal compatibility and corrosion-resistant construction make them a durable addition to a wide range of vehicle models.

Technical Specifications

Available Sizes

- 127*90cm
- 127*96cm
- 140*100cm
- 160*110cm

Maximum Load Capacity

150 lbs

Load Capacity

Material	Aluminum Alloy
Bar Dimensions	48 inches (L) x 3 inches (W) x 1.5 inches (H)

Compatibility & Design

Compatibility

Universal Fit • 4x4 Compatible

Color Options	Black, Silver
Finish	Black powder-coated
