

Aluminum Alloy Handheld Flashlight

This high-intensity flashlight is made of aluminum alloy for durability. It features a textured grip for enhanced handling and is suitable for outdoor activities and professional use.

Overview

High-Performance Aluminum Flashlight

This handheld flashlight is crafted from durable aircraft-grade T6061 aluminum, making it a robust tool for both professional and recreational use. With a powerful output of up to 360 lumens and a beam range reaching 350 meters, it provides reliable illumination for search, rescue, and outdoor activities. The set includes essential accessories like a lithium battery and chargers, ensuring you are prepared for any emergency or operational need.
