

# Aluminum Alloy Level Ruler with Magnetic Surface

This aluminum alloy level ruler ensures precise measurements in various construction and DIY tasks. It features a magnetic surface for hands-free operation and shockproof end caps for durability.

## ADDITIONAL IMAGES

## Overview

### High-Precision Leveling Tool

This high-precision level ruler is engineered for professional-grade accuracy in construction and DIY leveling tasks. Constructed from robust aluminum alloy, it features individually calibrated solid acrylic vials that ensure reliable measurements. With a powerful magnetic surface for hands-free operation and shockproof end caps for durability, this tool is designed to withstand demanding work environments.

## Technical Specifications

Accuracy Class	Class I
Leveling Accuracy	0.5 mm/m
Length	600 mm

## Features

Magnetic Surface	Yes
Vial Warranty	5 Years
Durability Features	Shockproof End Caps, Fog-resistant Vials, Leak-resistant Vials, Band Magnet

## Certifications

**Compliance Standards**  
MID • ISO 9001 • JIS B 7512 • CE
