

Aluminum Alloy Mounting Ring

This precision-engineered metal ring is designed with evenly spaced mounting holes. Constructed from high-grade aluminum alloy, it ensures optimal strength and durability for various applications.

Product Overview

Precision-Engineered Aluminum Alloy Mounting Ring

This precision-engineered mounting ring is designed for seamless integration into a wide variety of mechanical and electronic systems. Constructed from high-grade aluminum alloy, it offers an optimal balance of strength and durability for demanding industrial applications. The component features a smooth, machined surface finish, ensuring consistent performance and long-term reliability in your assembly.

Technical Specifications

Outer Diameter	250 mm
Inner Diameter	150 mm
Thickness	5 mm
Mounting Hole Diameter	10 mm

Material & Construction

Material	High-grade Aluminum Alloy
Finish	Machined smooth finish

Applications

Typical Applications	Mechanical Systems, Electronic Applications, Industrial Assembly
