

# Aluminum Alloy Speaker Basket - 12-Inch V Series

This 12-inch speaker basket is made from aluminum alloy. It is part of the V series and designed for audio-video product applications.

## Product Overview

### V-Series 12-Inch Speaker Basket

This V-series speaker basket is a professional-grade component designed for 12-inch audio-video applications. Constructed from durable aluminum alloy, the basin-shaped frame provides structural integrity and reliable performance for speaker assembly or repair. Its design incorporates essential mounting points and ventilation openings to facilitate optimal sound output and heat dissipation.

## Physical Specifications

Size Class	12-Inch
Material	Aluminum Alloy
Design Features	Basin-Shaped, Ventilated, Multi-Mount

## Application

### Intended Use

- Speaker Building
- Audio Repair
- Audio-Video Equipment Assembly
