

Aluminum Alloy Speaker Stand Accessory

This is an aluminum alloy basin-shaped stand designed as a speaker accessory. It features a circular outer ring with evenly spaced mounting holes and a central hub with a five-spoke design.

Product Overview

Precision Engineered Speaker Support

This aluminum alloy basin-shaped stand is designed specifically as a high-quality accessory for 6-inch V-series speaker systems. Crafted for stability, it features a robust five-spoke central hub and a circular outer ring with integrated mounting points. Its silver finish provides a professional aesthetic, ensuring it integrates seamlessly into high-performance audio setups.
