

Aluminum Folding Hand Truck

This aluminum folding hand truck is lightweight and durable, designed for easy transport and storage. Its compact design allows for convenient portability, and its sturdy construction ensures reliable performance with a maximum load capacity of 90kg.

Product Overview

Versatile Aluminum Folding Hand Truck

This lightweight and durable folding hand truck is designed for seamless transport and storage in various environments, including homes, offices, and warehouses. Its compact, telescoping design ensures convenient portability, while the anodized aluminum alloy construction provides excellent rust resistance and long-term durability. Featuring a non-slip platform and smooth-rolling wheels, it is an ideal solution for light industrial and personal material handling needs.
