

# Aluminum Oxide Abrasive Cloth Roll

This abrasive cloth is designed for sanding and finishing applications. It features a durable cloth backing and aluminum oxide abrasive for effective material removal.

## Product Overview

### Professional Abrasive Cloth Roll

This high-quality abrasive cloth roll is engineered for effective material removal and superior surface finishing. Featuring a durable cloth backing, it is designed to withstand the rigors of both manual sanding and power tool applications. Its aluminum oxide composition ensures consistent performance and longevity across a variety of industrial sanding tasks.

## Technical Specifications

Abrasive Material	Aluminum Oxide
Backing Type	Durable Cloth
Suitable Applications	Hand Sanding, Power Tool Applications, Material Removal, Surface Finishing

## Product Features

### Key Benefits

- High-quality abrasive grain
- Extended service life
- Versatile for multiple sanding methods
- Consistent material removal
