

Aluminum Snap Frame Light Box

This light box has an aluminum snap frame and provides a modern lighting solution. The frame is 43mm wide and it can be customized to a maximum size of 800x2400mm.

Overview

Professional Display Lighting Solution

This aluminum snap frame, two-sided light box offers a modern, ultra-slim design perfect for high-visibility advertising. With a durable 43mm frame width and a thickness of only 25mm, it is engineered for both aesthetic appeal and practical use. Its versatile design supports custom sizing up to 800x2400mm, making it an ideal choice for exhibition shows, menu boards, and retail environments.
