

# Aluminum Spirit Level 40cm

This precision-engineered aluminum spirit level is designed for accurate leveling. It features a durable aluminum frame and multiple bubble vials for horizontal, vertical, and 45-degree measurements.

## Overview

### Precision Aluminum Spirit Level

This 40cm aluminum spirit level is engineered for accuracy and durability in both professional and DIY leveling applications. Constructed from a robust aluminum frame, it features dual vials to ensure precise horizontal and vertical measurements. Its compact 400mm length makes it highly portable and suitable for a wide range of construction and maintenance tasks.

## Physical Dimensions

Length	400 mm
Length	40 cm

## Technical Specifications

Material	Aluminum
Number of Vials	2

## Performance

### Accuracy

**0.5 mm/m**  
Accuracy

## Features

Key Features	Aluminum Frame, Dual Vials, Precision Calibrated
