Product Overview

Compact Cloud Computing Solution

The E240 series thin client is a high-efficiency mini host PC station designed for modern IT environments. Featuring an AMD E240 CPU, it delivers reliable performance for desktop virtualization and general-purpose computing tasks. Its small form factor and energy-efficient design make it an ideal choice for businesses looking to reduce hardware footprints while maintaining seamless infrastructure integration.

Technical Specifications

Processor	AMD E240
Video Connectivity	HDMI
Key Applications	Cloud Computing, Desktop Virtualization, Thin Client, Mini PC Station, Embedded Systems

Key Features

System Highlights

- Compact space-saving form factor
- Low power consumption operation
- Reliable performance for professional tasks
- High-definition display support
- Easy integration into IT infrastructures
