

AM/FM Wooden Cabinet Radio with Digital Clock

This wooden cabinet radio features an AM/FM tuner and a digital clock display. It includes illuminated knobs for easy control and an extendable antenna for optimal radio reception.

Overview

Classic Design Meets Modern Functionality

This AM/FM wooden cabinet radio seamlessly blends a timeless aesthetic with essential modern features. Encased in a durable wooden housing, it offers reliable radio reception alongside a multi-functional digital display that tracks time, date, and day of the week. Designed for ease of use, it features large, illuminated control knobs and an integrated thermometer, making it a versatile addition to any professional or home environment.
