

AM/FM Wooden Radio with Calendar and Temperature Display

This AM/FM wooden radio features a built-in calendar and temperature display. The radio has a classic wooden design and includes knobs for tuning and volume control.

Overview

Classic Design Meets Modern Functionality

This AM/FM wooden radio combines a timeless aesthetic with essential digital convenience. It serves as a versatile desktop companion, featuring a clear digital display that provides time, date, and ambient temperature readings. With intuitive manual controls for tuning and volume, along with an integrated AUX input, it offers both traditional radio listening and flexible connectivity for external audio devices.
