

Angle Grinder for Cutting and Polishing

This angle grinder is designed for cutting, grinding, and polishing various materials. Its compact design allows for easy handling and maneuverability.

Product Overview

Professional Angle Grinder

This robust angle grinder is precision-engineered for cutting, grinding, and polishing a variety of materials. Its compact design ensures excellent maneuverability and ease of handling during extended use. Equipped with a high-performance motor, it delivers efficient material removal for both professional industrial tasks and demanding DIY projects.

Technical Specifications

Rated Power Input

540 W
Power

Rated Speed	13000 r/min
Net Weight	1.7 Kg

Cutting Capabilities

Max. Wheel Diameter	110mm, 115mm
Hole Diameter of Wheel	16 mm

Identification

Model Number	S1M-FF-100A
