Product Overview

Professional Performance Angle Grinder

This high-performance angle grinder is engineered for versatile material processing, including cutting, grinding, and polishing. It features a robust, powerful motor designed for efficient material removal and extended operational life. The ergonomic design includes an auxiliary handle to ensure operator comfort and precise control during demanding tasks.

Key Features

Performance Highlights

70

Model/Series Identifier

Safety & Operation

Spindle Lock, Protective Guard, Ergonomic Grip, Auxiliary Handle

Technical Construction

Internal Components

Component	Design Feature
Upper Rocker Arm	Dual circular apertures for bearing integration
Lower Rocker Arm	Cylindrical protrusion with central bore for spindle mounting

Construction Material

Hardened metal construction designed for wear resistance in high-stress applications.
