

Angled Vacuum Cleaner Hose Attachment

This angled attachment connects to vacuum cleaner hoses, providing an extension for cleaning hard-to-reach areas. Constructed from durable plastic, it features a smooth interior for optimal airflow.

Product Overview

Professional Angled Attachment

This angled vacuum cleaner hose attachment is engineered to provide an essential extension for reaching difficult and confined cleaning areas. Constructed from high-quality, durable plastic, the unit ensures longevity and robust performance in professional settings. The internal design is optimized with a smooth finish to promote efficient airflow and reduce potential suction loss during operation.

Design and Compatibility

Material	Durable high-grade plastic
Color	Black
Integrated Locking Mechanism	Yes

Performance

Airflow Design	Smooth Interior, Low Friction, Optimized Flow
----------------	---

Application

Recommended Use

- Reaching tight corners
- Difficult-to-access areas
- General maintenance vacuuming
