

# Annular Cutter Pilot Pin

High-precision annular cutter accessories designed for use with a variety of electric tools. These accessories are crafted from high-quality materials for durability and optimal performance, ensuring accurate and efficient cutting.

## Product Overview

### Precision Annular Cutter Accessories

These high-precision accessories are essential for optimizing the performance of annular cutters in metalworking applications. The range includes a variety of pilot pins for different cutting depths and specialized adapters to ensure compatibility with various machine tools. Engineered for durability and efficiency, these components facilitate clean, accurate hole creation and are suitable for diverse industrial requirements.

## Pilot Pins

### Standard Pilot Pins

Model	Cutter Length
PIL-1	1" (25mm)
PIL-2	2" (50mm)
PIL-3	3" (75mm)
PIL-4	4" (100mm)

### Stepped Pilot Pins

Model	Cutter Length
PIL-1A	1" (25mm)
PIL-2A	2" (50mm)
PIL-3A	3" (75mm)
PIL-4A	4" (100mm)

Available Diameters	6.34mm, 7.98mm
---------------------	----------------

## Adapters

### Available Adapters

- MMA-1 Milling Machine adapter
- MTA-2 #2 Morse Taper adapter
- MTA-3 #3 Morse Taper adapter
- WCA-2 #2 Morse Taper Internal Cooling Adapter
- WCA-3 #3 Morse Taper Internal Cooling Adapter
- WCA-4 #4 Morse Taper Internal Cooling Adapter
- CJ-1 Cutter Joint

Compatible Shank Diameters	19mm (3/4"), 32mm (1-1/4")
----------------------------	----------------------------

## Customization

Customization Options	Yes
Customization Details	Special pins and adapters are available as per the buyer's requirements, drawings, or samples.
