

ANSI 250 Non-Rising Stem Gate Valve

This ANSI 250 non-rising stem gate valve is designed for industrial applications requiring reliable flow control. Its non-rising stem design is suitable for installations where vertical space is limited and provides tight shutoff.

Product Overview

Industrial Grade Gate Valve

The ANSI 250 Non-Rising Stem Gate Valve is a robust solution designed for industrial applications requiring reliable flow control. Its non-rising stem design makes it an ideal choice for installations where vertical clearance is limited. Engineered for durability and performance, this valve provides tight shutoff capabilities and is suitable for diverse media including water, oil, and gas.

Technical Specifications

Standard Compliance

ANSI Standard

Available Sizes

2" - 12"

Stem Design

Non-Rising Stem

Pressure Class

250 PSI

Application Details

Compatible Media

Water, Oil, Gas
