Overview

Professional Eye Protection

These safety glasses are engineered to meet rigorous ANSI Z87.1-2015 and CE EN 166 safety standards, making them an essential choice for site visitors and general industrial use. Featuring high-quality polycarbonate lenses and frames, they offer reliable medium impact protection against high-speed particles. Designed with adjustable length temples, these glasses ensure optimal comfort and a secure fit for extended wear.

Technical Standards

Certifications	ANSI Z87.1-2015, CE EN 166
Impact Protection	Medium impact protection (45m/s)

Construction

Material Composition

- Polycarbonate (PC) Lens
- Polycarbonate (PC) Frame

Key Features

Adjustable Temples • Lightweight • Site Visitor Friendly

Usage Guidelines

Care and Maintenance

Action	Instruction
Cleaning	Wash in tepid water; dry with soft, non-abrasive cloth
Storage	Store in provided packaging, away from direct sunlight and chemicals
Inspection	Check before every use; replace if damaged
