

Anti-Dust Mite Handheld Vacuum Cleaner

This anti-dust mite vacuum cleaner is designed for removing dust mites and allergens from mattresses and upholstery. It features a high-frequency vibration pad, powerful suction, and HEPA filtration.

Product Overview

Advanced Anti-Dust Mite Cleaning

This handheld vacuum cleaner is engineered with a smart, lightweight design for effortless handling and thorough allergen removal. It features dual high-frequency vibration heads to dislodge deep-seated particles, complemented by a powerful suction nozzle that eliminates blind spots. With integrated ultraviolet bactericidal technology and a multi-stage filtration system, it provides a comprehensive solution for maintaining a hygienic environment on mattresses and upholstery.

Performance Metrics

Motor Power

300 W

Motor Power

Vacuum Strength	12 kPa
Noise Level	73 dBA

Technical Specifications

Dust Cup Capacity	0.5 L
Power Cord Length	4 m

Features

Key Features

- Ultraviolet bactericidal function
- Dual high-frequency pat heads
- Multi-stage filtration system
- Transparent dust cup for easy monitoring
- Multiple safety protection functions

Safety & Design	Lightweight, Anti-Allergen, UV-C Sterilization, Easy Maintenance
