

Anti-Theft Alarm Tag with Lanyard

This anti-theft alarm tag helps prevent theft in retail environments. It features a lanyard for easy attachment to bags and other merchandise, triggering an alarm if tampered with.

ADDITIONAL IMAGES

Product Overview

The self-alarms tag provides specialized protection for packages and high-end bags.

Advanced Self-Alarming Security Tag

This anti-theft alarm tag is a sophisticated security solution designed specifically for high-value retail merchandise such as bags, electronics, and luxury apparel. Featuring an integrated self-alarms mechanism, the tag triggers an audible alert if the lanyard is cut or if the device is tampered with, providing a powerful deterrent against shoplifting. Its versatile lanyard attachment allows for secure protection of diverse product shapes that are difficult to secure with standard hard tags.
