

Anti-Theft Security Fog Generator

This device is designed for indoor anti-theft and anti-robbery applications. Upon activation, it rapidly fills the area with a dense fog, covering up to 150 cubic meters.

ADDITIONAL IMAGES

Overview

The compact design allows for discreet installation on walls or ceilings in various commercial environments.

Active Anti-Theft Protection

This security fog generator provides a proactive defense against burglary and robbery by filling indoor spaces with dense fog in seconds. Designed to impair visibility and disorient intruders, it effectively protects valuables in banks, retail stores, and warehouses. The system uses non-toxic, food-grade solid materials that are safe for people, animals, and electronic equipment.

Performance

Key Performance Metrics

150 m³

Coverage Area

1 s

Startup Time

60 min

Fog Duration

Technical Specifications

Physical & Electrical Data

Parameter	Value
Dimensions	158 x 109 x 80 mm
Weight	0.75 - 1.0 kg
Power Input	12V DC, 1A
Power Consumption	0 - 20W
Operating Temperature	-40°C to 60°C
Operating Humidity	10% - 85%

Operation & Integration

The system seamlessly integrates with cameras, smart sockets, and mobile apps for comprehensive security management.

Activation Methods

Panic Button, Remote Control, Security Camera Linkage, Network Alarm System, App Trigger

Fog Characteristics

Utilizing safe and non-toxic cold smoke technology to protect up to 150 cubic meters within seconds.

Fog Properties

- Solid dry food grade material
- Non-toxic and non-corrosive
- Naturally degradable
- Harmless to equipment and animals
- Adjustable spray angle (Horizontal 0-360°, Vertical -90° to +90°)

Compliance & Applications

Certifications

CE • FCC • FDA • RoHS • ISO • Non-toxic Report

Ideal Applications

- Banks and Financial Institutions
- Luxury & Jewelry Stores
- Supermarkets and Retail
- Warehouses
- Private Residences
- Government Agencies
