

# Anti-Theft Security Gate for Retail and Libraries

This security gate is designed to prevent theft in bookstores, libraries, and factory outlets. It uses electromagnetic technology to detect tagged items.

## ADDITIONAL IMAGES

## Overview

ABSOLUTELY **OUTSTANDING!**

Nice look with excellent anti-theft performance

Steel Watch 10

Modern aesthetic with transparent panels suitable for high-end retail and libraries.

### Professional EM Security Solution

The ES001 is a high-performance electromagnetic (EM) security gate designed specifically for libraries, bookstores, and retail outlets. This system provides a reliable anti-theft deterrent while maintaining an open, welcoming atmosphere through its sleek resin-glass and MDF construction. With advanced detection technology and customizable configurations, it offers a robust solution for protecting valuable assets in high-traffic professional environments.
