

Antique Brass Finish Ceiling Fan with Wooden Blades

This ceiling fan features an antique brass finish and five gracefully curved wooden blades. It is designed for both aesthetic appeal and efficient air circulation, and includes a pull chain for speed control.

Product Overview

Vintage Aesthetic Meets Energy Efficiency

This antique brass finish ceiling fan combines classic design with practical functionality. Featuring five gracefully curved wooden blades, it serves as an elegant centerpiece for any room while providing effective air circulation. Beyond aesthetics, the fan is designed to optimize indoor comfort, working alongside air conditioning systems to reduce energy consumption by up to 40%.
