

Antique Sewing Machine Steel Stand

This antique-style steel stand is designed for sewing machines and features a wheel mechanism for manual operation. It is equipped with caster wheels for mobility and adjustable feet for stability on uneven surfaces.

Product Overview

Vintage-Inspired Sewing Machine Base

This antique-style steel pipe stand offers a robust and reliable foundation for sewing machine heads and tabletops. Engineered for authentic manual operation via a belt-driven mechanism, it captures a classic aesthetic suitable for restoration or custom furniture projects. The design incorporates both caster wheels for effortless mobility and adjustable feet to ensure stability on various surfaces.
