

Anvil Loppers with High-Carbon Steel Blade

These anvil loppers are designed for efficient and clean cuts on branches and stems. They feature a high-carbon steel blade for lasting sharpness and durability.

Product Overview

Professional Anvil Loppers

These professional-grade anvil loppers are engineered for efficient and clean cuts on branches and stems. Featuring a high-carbon steel blade, they offer lasting sharpness and durability, while the anvil design maximizes cutting power with minimal user effort. Built with lightweight yet sturdy handles, these loppers ensure comfortable operation during extended use in gardens and orchards.

Technical Details

Blade Material	High-Carbon Steel
Cutting Mechanism	Anvil
Suitable Materials	Dry Wood, Hard Wood, Branches, Stems

Design Features

Construction

Heavy-Duty • Lightweight

Key Advantages

- High-carbon steel for lasting sharpness
- Anvil design for maximum cutting power
- Extended reach for trees and shrubs
- Comfortable operation for extended tasks
