

Aquarium Air Pump

This air pump features an advanced air-compressing system, damping system, and multilevel muffler for quiet operation. It utilizes artificial rubber to maintain steady air output and pressure while minimizing power consumption.

Overview

Professional Aquarium Air Pump Series

This series of aquarium air pumps features an advanced air-compressing system, damping system, and a multilevel muffler to ensure extremely low noise operation. Engineered with special artificial rubber components, these pumps maintain steady air output and pressure while maximizing energy efficiency. They are ideal for supplying air to aquariums, water ball lights, and other aquatic setups, offering a reliable and long-lasting solution.

Key Features

Key Features

Low Noise, Energy Efficient, Steady Air Output, Advanced Damping System, Multilevel Muffler

Technical Specifications

Model Specifications

Model	Power	Max Output	Pressure
AP-1688	1.5W	1.6L/MIN	0.012Mpa
AP-2688	2.9W	2x2L/MIN	0.012Mpa
A-8510	1.5W	1.6L/MIN	0.012Mpa
A-8520	2.9W	2x2L/MIN	0.012Mpa
AP-2000	2.5W	1.6L/MIN	0.012Mpa
AP-3500	5W	3.5L/MIN	0.012Mpa
AP-2000A	2.5W	1.6L/MIN	0.012Mpa
AP-8600	5W	3.5L/MIN	0.012Mpa
