

# Aquarium Hang-On Power Filter

Hang-on power filters designed for aquariums with varying flow rates and power consumption. These filters are suitable for different voltage inputs and include restart functionality after power loss.

## Product Overview

### High-Efficiency Hang-On Power Filters

These professional-grade hang-on power filters are designed for optimal aquarium water filtration, offering a versatile range of models to suit various tank sizes. Engineered for reliability, they feature an automatic restart function that resumes operation seamlessly after power cuts without the need for manual water priming. With universal voltage compatibility (110/220/240V) and a wide spectrum of flow rates from 250L/H to 1400L/H, these units provide consistent and efficient filtration performance for diverse aquatic environments.

## Technical Specifications

### Key Features

Hang-on design • Automatic restart • Multi-voltage support

### Power Input

110V, 220V, 240V, 50Hz, 60Hz

## Model Comparison

### Performance & Specifications by Model

Model	Power (W)	Flow Rate (L/H)	PCS/CTN
XP-06	3.5	250	60
XP-06B	3.5	250	60
XP-07	4.5	500	36
XP-08	6.5	680	36
XP-800	12	700	30
XP-900	12	700	25
XP-930	20	1400	25
XP-950	20	1400	20
XP-3045	5	400	24
