

Arched Folding Steel Ramp for Vehicle Loading

This heavy-duty ramp is designed for loading vehicles and equipment into trucks or trailers. The ramp folds for compact storage and includes safety straps.

Product Overview

Heavy-Duty Arched Steel Ramp

This heavy-duty arched steel folding ramp is engineered for efficient loading of ATVs, motorcycles, and lawn equipment into trucks or trailers. The bi-fold design allows for compact storage and easy transport, while the arched structure provides necessary clearance to prevent bottoming out for low-profile vehicles. Sold as a pair, these ramps combine durable steel construction with practical design features for reliable daily use.
