Overview

High-Performance Engine Sealing Solution

This high-quality asbestos engine gasket is engineered for demanding applications requiring superior resistance to extreme temperatures and pressures. Designed for precision fit and long-term durability, it provides a robust, reliable seal against oil and water. Ideal for heavy-duty tractor and power generation engines, this component ensures high operational efficiency and extended service life.

Technical Specifications

OEM Reference Numbers	3681E037, 3681E025, 4224501M1
Part Reference Number	66-AG-0027-01
Primary Application	Tractor Engine

Compatibility

Compatible Perkins Models

- Perkins 3075
- Perkins 6120
- Perkins 6130
- Perkins 6140
- Perkins 6150
- Perkins 4225
- Perkins 4325
