Overview

Professional Ash Cleaning Solution

This high-performance ash vacuum cleaner is specifically engineered for the safe and efficient removal of ash from fireplaces, stoves, and barbecues. Featuring a robust steel chamber filter and fireproof construction, it is designed to handle warm ashes with ease. Its compact design, combined with a powerful motor and flexible nozzle, ensures thorough cleaning while remaining easy to store and transport.

Performance

Motor Power	900 W
Airflow	e1.5m ³ /min
Vacuum Pressure	17±1.5 KPa
Noise Level	d78LPA
