

Asphalt Pavement Maintenance Truck

The asphalt pavement maintenance truck integrates a cutting and crushing unit, a dusting unit, and an asphalt heating unit. It applies innovative techniques to concentrate multiple processes like heating, mixing, and recycling into one truck.

Overview

Asphalt Pavement Maintenance Truck

This specialized maintenance vehicle is engineered for efficient asphalt repair and road upkeep. It integrates advanced heating, mixing, and spraying systems, making it an essential tool for pothole repair, crack sealing, and general pavement maintenance. Designed for reliability and performance, this truck provides road crews with the necessary equipment to ensure high-quality road repairs.

Technical Specifications

Engine Power

96 kW

Engine Power

Wheelbase	3750 mm
Curb Weight	3400 kg
Gross Weight	7495 kg

Dimensions

Overall Dimensions (LxWxH)	7200 x 2290 x 3060 mm
----------------------------	-----------------------

Capabilities

Maintenance Capabilities	Pothole Repair, Crack Sealing, Asphalt Heating, Aggregate Mixing, Asphalt Spraying
