

ASTM F436 Structural Flat Washers

These flat washers conform to ASTM F436 specifications. They distribute load under bolt heads and nuts to prevent pull-through in structural bolting and machinery assembly.

Product Overview

ASTM F436 Structural Flat Washers

These structural flat washers are engineered to meet rigorous ASTM F436 standards, providing reliable load distribution for structural bolting applications. Designed for durability and performance, they are compatible with a wide range of industrial assembly requirements, including building, automotive, and furniture construction. Available in various material compositions and protective finishes, these washers ensure consistent quality and mechanical integrity for your fastening projects.

Technical Standards

Applicable Standards

ASTM F436, ASTM A325, ASTM A490, ASTM A563, ASTM A193 B7, ASTM A194 2H, DIN, ISO, ANSI, ASME, BS, AS, JIS

Material & Finish

Material Composition

- Carbon Steel
- Alloy Steel

Available Finishes

Plain • Black Oxidized • Zinc Plated • Hot Dip Galvanized • Dacromet

Performance

Available Grades

8.8, 10.9, 12.9, Gr5, Gr8

Logistics & Supply

Monthly Supply Capacity

800 tons

Supply Ability

Standard Delivery Time

7-30 days

Standard Packaging

25kg per carton, 36 cartons per pallet

Applications

Typical Applications

- Building Construction
- Instrument Assembly
- Automotive
- Furniture Manufacturing
